Response to OF 7/7/04

Issue 26

Communications with the examiner has not produced any resolution of any issue , to date

Issue 27

Ditto

Issue 28

I object to the status of the application as being ready for publishing as its being denied .

Comments

It should be noted that my search of Patents on an official PTO computer terminal did not show Sowards , Fernald , Buchanan ,or Poister among the 200 + listed .

The applicant does not believe he can satisfy the examiners objections to the application where any Claims are likely to result , but only more objections , wrongly applied .

The Examiner can call me to dissuade me of that opinion but it seems the dies been cast .

No attempt to amend will be made . Please fax my drawings back to 510 523-7485

Conditional request for constructive Assistance

pursuant to M.P.E.P. 2173 .02 that facilitates an allowable condition then it is respectively requested

Very respectively
